

Update YOUR Look

Back-to-basics makeovers you can do in one day

In today's world where cosmetic surgery is rapidly becoming the norm—and aging gracefully has been tossed out like yesterday's newspaper—it's often easy to forget how simple yet effective a day trip to the salon or spa can be.

While everyone knows there are safe and effective treatments out there to turn back time, we at Vive wanted to remind you just how important getting back-to-basics can be and just how easy it is to shave years off your appearance with a little help from the experts at your own friendly neighborhood salon.

Here, we take four Vive readers ages 30 to 55+, each with their own specific beauty concerns, and we show them just what one day at the salon

or spa can do to restore their confidence and update their look. We present to you some simple makeovers that are easily attainable, and even better, don't have to break the bank. As you'll see sometimes it's minor changes that make all the difference. From extensions and high-shine color to microdermabrasion to the magic of makeup, these ladies look years younger without one stitch or injection thanks to our beauty teams at Eleven in Delray Beach, Michael Angelo Salon and Spa in Wellington, Pizzazz Hair Design and Spa in Palm Beach Gardens, and D. Laudati Master Haircolorist and Associates in West Palm Beach.

Take a look at their transformations...you might just pick up a tip or two for yourself.

BEAUTY BUZZ

Great shape is the foundation of a hairstyle, no matter what age. A youthful look encompasses the combination of a great cut, color and texture, no matter the length of your hair."

MAKEUP MAGIC

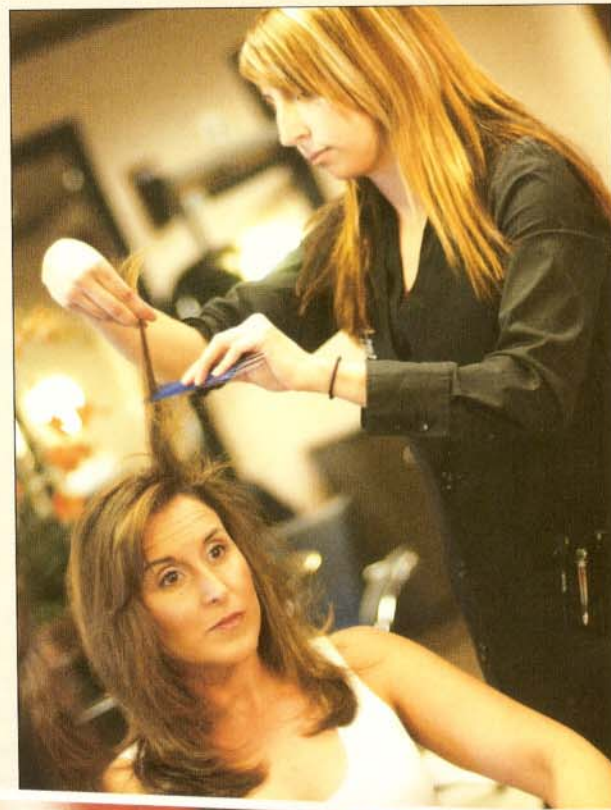

The Problem:

Dark Undereye Circles

The Solution: Lighten your dark brown circles with a dab of yellow tinted color corrector and top off with a concealer. Your dark circles can be caused by sun damage or genetics.

The Problem:

The Solution: Rather than extending your lip line past your natural lip line, line them with a slightly darker liner and color in your lips from the outer corners in, stopping about a quarter way. Then paint on a slightly lighter lipstick to give the illusion of a full pout.

HOW THEY GOT THE LOOK:

Adding something as simple as long swept bangs to your existing do can update your look dramatically. The team at Pizzazz Hair Design and Spa added rich color to Elsa's hair as well as sun-kissed highlights. Along with face framing layers, the line of her bangs was deepened, giving her a overall thicker bang and more modern version of her current style.

The one hour and 15 minute process includes two exfoliations, paraffin wax, hand massage, complimentary drink, and a foot and leg massage. Examples of past "pedicures of the month" are the Green With Envy that uses spearmint paraffin wax and is served with your choice of mint tea or Irish coffee, and the Pink Passion that uses pink Malibu scrub, served with pink lemonade for a little added fun.
